Dr. Jianjun Chen: Research Publications

**Book Chapters**

**Refereed Journal Articles**

promotes adventitious shoot regeneration from pothos (Epipremnum aureum) leaf and petiole explants. In Vitro Cellular and Developmental Biology-Plant 38:268-271.

Refereed Proceedings of Research Conferences

variegation between mother plants and daughter plantlets of Chlorophytum comosum ‘Vittatum’.
and pH of bulk solutions extracted by different methods. Proceedings of Florida State Horticultural

Non-refereed Articles and Proceedings of Research Conferences
fertilizers for use in production for interiorscape and landscape plants. Proceedings of Florida State
Horticultural Society 121:346-349.
Biogeochemistry of Trace Elements: Environmental Protection, Remediation and Human Health.
Tsinghua University Press, Beijing.
Elements: Environmental Protection, Remediation and Human Health. Tsinghua University Press,
Beijing.
Southern Nursery Association Research Conference 47:104-106.
compost-formulated media after foliage plant production. Proceedings of Southern Nursery
method for extracting plug root-zone solutions. Proceedings of Florida State Horticultural Society
114:243-245.
container-grown ornamentals to controlled-release fertilizers. Proceedings of Southern Nursery
shock response of Spathiphyllum cultivars. Proceedings of Southern Nursery Association Research
Conference 45:122-124.
